General Education Requirements

Refer to the General Education requirements in the General Education Handbook. 120 credits are required for graduation from GVSU. The BFA requirements total 84 credits. The total number of credits required for graduation will be the sum of the General Education requirements and the Graphic Design BFA requirements, and will exceed 120. Taken in 8 semesters, this results in an average of 16 to 17 credits a semester. University requirements all represent important aspects of your education. While each is distinct and important, with careful planning, semester course loads, and time to graduation can be reduced. The block tuition rate is for 12-15 credits. You will pay additional tuition for any credits over 15.

Options for altering semester course loads and time to graduation:

1. Some General Education courses fulfill more than one requirement.
2. General education courses can be fulfilled in a summer study abroad program.
3. General education and theme/issues coursework may be completed in Spring/Summer sessions.
4. Internships can be taken in the summers.
5. You may opt to extend your time in school to 4.5 or 5 years.
