Clarification I: Question and Answer

Ref: Bid #220-06 – Microsoft EES

Please reference questions and answers listed below:

Question #1

After you decide who to go with on the bid, will this be a project you would place an order on shortly after the deadline or would you hold off and purchase later down the road?

Answer #1

Please see page # 4 of RFP 220-06. GVSU will be issuing a PO shortly after the deadline, we're asking to have the agreement completed by 10/15/19.

Question #2

Would GVSU consider purchasing this through one of the consortia agreements/contracts that they are members of? Those being Omnia partners (formerly National IPA) or MiDeal.

Answer #2

Yes, GVSU is happy to take advantage of contract pricing. They must make sure we qualify for the pricing and if there are any fees required as part of the contract they must clearly state them.
